## **Star Wars on cigs**

IF NICOTINE patches, crave-reducing chewing gum or even hypnotherapy have failed to stop you smoking, then the answer may lie in the latest Star Wars-style technology.

Pioneering laser treatment at Monklands Hospital in Airdrie has had astonishing effects.

Annie Westhorpe from Coatbridge gave up a 30-a-day habit. She said: "It was marvellous, I haven't had a craving since."
